

Why do YOU need a **DEPENDABLE** car warranty?

★ **Because that's the difference between a new and used car! Global's got you covered!**

★ **Today's cars have more sophisticated systems and electronic componentry than ever before.**

Today's cars are built with many options that are more and more sophisticated and most are filled with high tech gadgets. Unfortunately these can break down over time and leave you with multiple expensive repair bills!

★ **Most car parts are expensive to replace.**

All components and labour door rates continue to rise in cost today. The labour time it takes to replace these parts is also increasing. This combination of rising parts and labour costs can result in you paying thousands of dollars out of your pocket if you are without Global Warranty's proven protection!

★ **You plan to keep your car for several years.**

Choose the plan that's right for you and your driving habits!

★ **Your manufacturer's warranty may have expired or has limited time and coverage remaining.**

Most full manufacturer's warranties expire at 60,000 kms. Global's ULTIMATE Factory Top Up program extends coverage from the vehicle's original in-service date.*
